Description

A timeless "Avant-Garde" Novali Lenard design combined with a strongly Aluminium built at Palmer Johnson in US make this 120 Model an excellent choice in its category. Currently commercially operated on charter this 37 metres fast semi planning vessel is probably the best pick-up between all PJ availibilities on the market, thanks to its clean history its relative low use for its age and its overall esthetical and technical status. Please, call us for more information.
