Description

Yvonne represents the 'slow motion' philosophy that has always characterized Ferretti Custom Line semi-displacement yachts. These spacious yachts are fuel-efficient and allow for sailing back and forth to, for example, Corsica without the need to refuel. Come on board and you will immediately be stunned by the most sophisticated interior, signed by the best international designers as well as the very innovative equipment chosen to make your stay on board truly unique and memorable. Natural light and spacious volumes are the dominating elements of the interiors: in the living room, continuous windows stretch from bow to stern, while on the second deck, the circular glazing door makes you feel you are in deep connection with the sea. M/Y Yvonne immediately strikes for its absolutely innovative garage and swimming platform: the floodable garage stores a jet tender of 4.45 meters long which can be launched without using a davit, a bathing platform that can be extended up to 15 m2 including 2 parasols and 2 chairs making this area a fantastic sunbathing place. Even the cockpit offers an original multi-function sunbathing area that can be used in 5 different ways. The master bedroom on the main deck at bow, has, a wide walk-in wardrobe/dressing room, large windows and the shower room can be converted into a Turkish bath. Below deck a central lobby leads to the four guest cabins, three of which are double and one fitted with twin beds; all have ensuite heads and separate showers and are beautifully decorated combining luxury and elegance while ensuring a "make yourself at home" feeling. The panoramic upper deck dominated by the circular glazed sliding door system embraces the dining area and connects the interiors to the outdoor areas, which are amazingly wide. A concealing TV screen in the outer ceiling can be, thanks to its 180° rotation system, watched from both the outside area and the indoor dining area. Finally, going up to the third deck you will discover a very private area. After a dip in the Jacuzzi, you will forget everything lying down on the very spacious sun pad, away from everyone's sight. The upper deck also hosts a standing shower, a canopy over part of the sun pad and a high fountain pouring water directly into the Jacuzzi. The standard audio/video equipment installed on the Navetta 28 is truly impressive. This amazing system, called 'VOTIS' (Video works One Touch Infotainment System) allows to control through iPads the whole entertainment system installed, thereby replacing all the remote controls of the various on board appliances with one single device.
