Description

Welcome in front of a brilliant illustration of the "state of the art" navigation demonstrator back in Ferretti history. The Bertram was and remains from all time highly respected for those "experienced yachtess" and owners, a reference in terms of sea going capabilities, "seaworst" strong and durable design, and practibility; one of the best Deep V-Hulls built and designed for the demanding fishing needs of the Atlantic ocean to confront itself with other US competitors in the segment; in other word it is one of the reference in terms of safety at sea ! This exemple of 63 Convertible is one of the few, perfectly maintained ones, kept in its best original conditions from its second owner who took close attention on her since now 13 years. The yacht was used solely privately with a permanent captain onboard, and kept in winterization in dry docks every seasons. Apart from the stabs, her specification is full and in the best 4 cabins layout, her volumes are gorgeous and comparable in many aspect in much larger actual yachts. All of her systems are running properly with many recent important changes, like fire protection system, batteries... She got several upgrade in the time, notably with an hydraulic platfom added on the stern, the general overall condition is excellent and she is ready to serve again the next owner for years ahead for its best satisfaction!
