Description

Rugged and seductive, Ferretti Yachts 850 New dazzles you from the moment you set eyes upon it, thanks to its clean and dynamic profile featuring striking, clear-cut angles giving you a powerful and bold look. Ferretti Group's Product Strategy Committee, Studio Zuccon International Project, and the Group's Engineering Department joined forces to design the yacht. With a hull measuring 26 meters and a construction length below 24 meters, the new flybridge can be registered as a pleasure craft. The two trapezoidal hull windows with integrated portholes make the most of the natural light and provide magnificent views from the inside. The design of the main deck enhances the overall experience, thanks to a single full-height window which cuts through the entire superstructure, plus the large front and side dome at the raised helm station. The yacht is equipped with a mechanism whereby the transom door swings open to provide a swimming platform, which becomes a beach area and can be lowered below the water surface, offering a large submersible platform for guests as well as a practical solution for the crew's tender moving operations. The yacht is a magnificent maxi loft surrounded by the sea. The use of perpendicular partitions, almost full-height glazed surfaces, light and pleated curtains, and freestanding furniture are typical elements of this ultra-contemporary metropolitan concept. In contrast with the geometry of the superstructure, the interior is dominated by flat surfaces and linear panelling, characterized by discreet minimalism and a soft, essential mood.
