DESCRIPTION

This brand new beauty Dominator 640, has been carefully designed by the talented new in house designer Mr Alberto Mancini. It reflects the close attention of the yard to continue investing in the future of this prestigious Yard. As result of this intensive work Dominator which fixed the yachting standards of what we may consider as luxury and feature of the yachting industry will push once again the limits in terms of Luxury integration out of the edge, this directly at the entrance of the Dominator Range. The first hull is now under construction with the aim to include even more features, more light, more quality and more technological innovations in the replacing successful 620 model. The yacht will be ready for the spring 2013, for your best convenience and for the next sailing season.
